Please replace paragraph [0081] of the specification as published with the following amended paragraph:

[0081] The screw threads 45 provided near the ends of the threaded rod 32 screw into the members 46. In turn, the nut members have a round extension 47 provided with a groove 48 extending at least part of the way around the circumference of the round extension. The round extension 47 fits snugly into the tube 49 and is held therein by a split pin clip ~~[[52]]~~ 24 fitting through a hole ~~51~~ corner clip 52 through the tube. The clip locates in the groove to hold the nut member 46 securely within the tube ~~[[51]]~~ 49 whilst allowing it to rotate with respect to the tube.
